# WOMEN LOSE THEIR BATTLE FOR SUFFRAGE

## LAND SUIT CITY TAKEN COMES TO AN END IN HARD FIGHT

F. W. Lake and H. H. Snow Lose Fight to Secure Valuable Property

Many Prominent Oaklanders Are Interested in \$8,000,000 Kern Holdings

SAN FRANCISCO, Oct. 11.—The supreme court in a decision rendered on Monday upheld the title to 640 acres of valuable land in Kern county, owned by Mary A. Bonyne, and refused to grant a new trial in an action brought by Fred W. Lake and H. H. Snow, who claimed that they themselves had rights to the property.

The history of this case, which has been occupying the attention of the court for a score of years, goes back to March 20, 1889, when a certificate of purchase for the 640 acres of land, then owned by the State of California, was issued to S. Davis, on payment of 20 per cent of the purchase price.

On August 25, 1892, an action was brought in the superior court against Davis, asking that the land transferred by certificate of purchase to him be annulled because he had failed to pay interest due January 1, 1892. The court granted the application and annulled the patent right issued to Davis, and the case was made final a year later, Davis having taken no appeal and having failed to assign his claim. Subsequently, on July 22, 1899, Mary A. Bonyne applied to purchase the land and a certificate was issued to her January 21, 1900. Nearly a year later, on December 7, 1900, Davis, the original owner, executed a conveyance to Charles H. Gilman, of the certificate of purchase issued to him, as recorded December 11, 1900, at the recorder's office at Kern county, and on the same day Gilman reconveyed it to the plaintiffs in the present action, Fred W. Lake and H. H. Snow, with the understanding that they take all legal proceedings to assert and maintain their title.

**ACTION SET ASIDE.** On December 31, 1900, F. W. Lake, who claimed to be a successor in the interest of Davis, filed a motion to set aside the conveyance made to Mary Bonyne on the ground that at the time of the action against Davis, no summons had been served upon him. The court granted the motion, and the previous action depriving Davis of his land was set aside. On October 29, 1901, the State moved to set aside the decision of December 31 on the ground that the court had no jurisdiction to vacate its decision made final December 27, 1899, cancelling Davis' certificate. November 11, 1901, the latter motion was granted, and on December 31, Lake appealed to the supreme court, which affirmed the order June 21, 1904.

On Jan. 25, 1909, Mary Bonyne paid in full her price for the land to the State and received her patent and on March 1, 1909, F. W. Lake and H. H. Snow brought the action, determined finally on Monday, charging that the certificate issued to Davis had never been vacated. The appeal to the supreme court was from an order denying a new trial for the entire litigation.

**COURT'S DECISION.** In a lengthy decision the supreme court holds that the final judgment rendered by it June 23, 1904, is complete and practically a bar to the present action. It is pointed out that the summons which Davis claims were not served upon him was duly published.

**Shoots at Sweetheart's Mother and Kills Self**

LOS ANGELES, Oct. 11.—After making an ineffectual attempt to kill Mrs. H. M. Hall, the mother of the girl he loved, A. Clifford Van Orden, twenty-five years of age, a linsotype operator, is dead here today. According to the police, Van Orden was

told by the girl's parents he must cease his attentions to her. He called at the house and when Mrs. Hall answered the bell he shot at her, the bullet grazing her side near the heart. He then shot himself, dying almost instantly. Van Orden came here recently from New York.

**Germany Is Said to Have Made Peace in Africa**

BERLIN, Oct. 11.—It was declared from an authoritative source today that an armistice had been virtually agreed on by Turkey and Italy, but that it had not been decided "officially."

It was brought about chiefly through the efforts of Germany, aided by other powers.

Italy continues to send troops to Tripoli, pending negotiations.

REBELS ORGANIZED.

The fact that the wishes of the committee have been respected thus far while reasoning to other nations, is in itself a sinister sign for the government at Peking, as it indicates that the rebellious movement is thoroughly organized.

The capture of the city was the climax of a series of sudden developments during the last twenty-four hours, all of which came about as the result of the tremendous feeling aroused by the execution of four rebels in front of the viceroys' yamen yesterday.

**TOWN IN AN UPROAR.** The troops prove to be disaffected and within a few hours after the first trouble developed the entire city was in an uproar. Fires were started in every corner of the town, the headquarters of the viceroys and of the provincial treasurer were burned, the military commander was killed by a dynamite bomb and the viceroys themselves escaped only by a hasty flight.

Among the foreigners known to have been in Wu Chang yesterday are twenty-five American missionaries.

Five foreign gunboats stationed along the Yangtze River are protecting the foreign residents of Hankow.

**DEFEAT IS EASY.** Earlier outbreaks have assumed the character of rioting, in which the mobs were soon out of the control of intelligent leadership, thus making their defeat by the better directed government troops comparatively easy.

The fear of the officials now is that the disaffection in the troops will spread to this city and every effort is being made to ward off this danger.

Five gunboats are now in the river in readiness to protect Hankow. American and Japanese cruisers are expected here tonight, while several gunboats are hastening hither.

Merchant vessels in the river are keeping steam up and women and children will board them tonight. Volunteers will guard the foreign quarter until the safety of all foreigners is secured.

**TRANSFER ACTIVITIES.** The revolutionaries, defeated in Sze Chuen province, where they for some time besieged the capital Cheng Tu, transferred their chief activities to Hupei, province, intending to make it the base for renewed operations in Sze Chuen. According to officials, an uprising in Wu Cheng was planned for Monday night. The plot was discovered and sixty-two arrests were made. Desiring to terrorize the revolutionaries, four of the prisoners were beheaded in the street before the viceroys' yamen yesterday.

Immediately a portion of the government artillery forces within the city mutinied and the uprising was precipitated. The disaffection spread to other forces and the revolutionaries started firing throughout the city and attacked troops that refused to join them. The latter were overcome.

BERKELEY, Oct. 11.—The suffrage amendment carried by a majority of 656 in the university city, according to unofficial returns. A peculiarity of the ballot of this issue is that the ultra exclusive Claremont precinct, joined with two precincts in the heart of West Berkeley in voting against equal rights. All the other precincts balloted in favor of the amendment. The majority in South Berkeley was small. The heaviest vote in the affirmative for suffrage was in the Claremont precinct, which was believed to be unfavorable, polled a majority for the suffrage measure. The heaviest majorities on any of the amendments were for the initiative and referendum, recall, and the measure making the railroad commission appointive by the Governor.

The Bungalow Proposition

No musical instrument in many years has so captivated music lovers as the BUNGALOW PLAYER PIANO (Registered.) It is so compact in size, so appropriate in design, that once you have seen the Bungalow Player Piano no bungalow seems quite complete without it.

But the Bungalow Player is also peculiarly fitted for apartments and flats.

During the past week we have sold a number of Bungalow Players for bachelor apartments. The man who wants to give a musical atmosphere to his apartment can do better than choose the Bungalow Player.

Remember—The Bungalow Player is complete in every way. Plays the full 88 note standard music, is equipped with every essential of the most complete player piano, and yet the price is no greater than that of an ordinary piano.

A free Studio library of music goes with the piano, and payments as low as \$2.50 per week may be arranged.

We are preparing to place five hundred Bungalow Player around Oakland before the first of January.

# COLUMBUS DAY PROGRAM CONTAINS SPECTACULAR AND NOVEL FEATURES

## DISCOVERER TO LAND ON LAKE SHORES

Elaborate Literary and Musical Features to Be Part of Celebration.

Boat Races in Afternoon and Venetian Carnival at Night Close Fete.

The committee of arrangements in charge of the celebration of Columbus day tomorrow met for the last time last night and completed all arrangements for the land and water carnival. The complete program will probably be the most spectacular and interesting ever held in Oakland or any other Pacific Coast city.

Among the features recently added to the already big program was an aviation exhibition of Weldon B. Cooke, an Oakland aviator, who will fly in his own machine, and E. Frey, who will give an exhibition on his own invention, the hydrocycle, an amphibious vehicle, which he will ride on Lake Merritt.

INVITATIONS TO CLERGY. All clergymen of the bay cities have been invited to take seats on the large open air platform, where the literary and musical exercises will be held. Parking spaces for automobiles on the Adams Point side of the lake, where the afternoon exercises will be held, will be set apart. The Grand avenue cars, which will have the words, Columbus Day, on a disc, will go direct to the scene of the festivities.

The canal on the Twelfth street side will be illuminated, reaching to the museum at Tenth street and Oak streets, on the west side to a point on the Lake side boulevard at point opposite the museum. Over a thousand lights have been strung and this section of the lake will be a veritable scene from fairyland.

FEATURES OF PROGRAM. A band float will be anchored just outside of the canal line to accommodate the Royal Italian Concert band, Italian grand opera singing, Hawaiian outrigger with music and song, Mandolin Club from the University of California, and a beautiful illuminated and decorated boat parade, headed by the caravels of Columbus, will be the features of the night program.

Special credit is due to the committee of arrangements, which is composed of the following: Chairman, John W. Stetson; first vice-chairman, Hugh Hogan; second vice-chairman, Judge William R. Geary; third vice-chairman, Cav. Cliff J. F. Fugazzi; secretary, Leo J. McCarthy; assistant secretary, A. Wilhelms; treasurer, Dr. G. Ghiglietti.

THE PROGRAM WILL BE AS FOLLOWS: PART I. Spectacular parade at 10 a. m., starting from Second and Broadway, north Broadway to Eighth street, west on Eighth to Washington street, north on Washington street to Fourteenth street, west on Fourteenth to Clay street, north on Clay street to San Pablo avenue, south on San Pablo avenue to Broadway, south on Broadway to Seventh street, counter-marching at Seventh street and going north on Broadway past the reviewing stand at the liberty flagpole to Twentieth street, east on Twentieth street to Harrison boulevard, north on Harrison boulevard to Grand avenue, east on Grand avenue to Adams point. ## Life Insurance Companies

They Are Closely Observing Public-Health Conditions.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that the reason why many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of applicants do not even suspect that they have the disease.

He states that judging from his own experience and reports from druggists who are constantly in direct touch with the public, there is one preparation that has probably been more successful in relieving and curing these diseases than any remedy known. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of cures.

We find that Swamp-Root is strictly an herbal compound and we would advise our readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes—fifty-cents and one-dollar.

However, if you wish to test its wonderful merits, send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle, absolutely free. When writing be sure and mention the Oakland Daily Tribune.

## REGENTS ACCEPT GIFT OF \$5000

Ernest A. Denicke Fund Established at the State University.

SAN FRANCISCO, Oct. 11.—At the meeting of the regents of the University of California the sum of \$5000 was accepted from the executors and heirs of the estate of Ernest A. Denicke, to be known as the Ernest A. Denicke fund. This fund will be distributed to members of the faculty who need assistance.

Mrs. Ernest A. Denicke gave \$1000 to the endowment fund for a German library for the university, this sum being in addition to the \$1000 which her husband started the fund in his lifetime.

The following appointments were made: Harold Francis Fischer, assistant professor of electrical engineering at \$500 per year, in place of G. C. Noble, resigned; W. B. Boys of Kansas assistant professor at \$1000 per year; Ross Stanley Sheppard assistant in the Lick Observatory at \$1000 per year.

TOTEM POLE IS GIFT. Mrs. Phoebe A. Hearst has presented to the museum of anthropology a totem pole from the Queen Charlotte Islands, valued at \$500. The pole is the largest of its kind in the state.

A regent who desired \$500, the income from this fund to be used for purchasing books for the university library, and an unknown donor contributed \$225 for an increase of the class of 1912.

A member of the class of 1912, who requested that his name be not mentioned, wrote that during the years 1897-8 he received a scholarship of \$125 which enabled him to complete his course in the university, as a token of appreciation of the generous treatment he experienced at the state's chief educational institution, he forwarded a check for \$200 to be used as a loan fund.

The regents decided that loans from this fund not exceeding \$100 should be made to male undergraduates above the freshman year, interest to attach from date of graduation or withdrawal from the university.

## 'WOMAN TOO SLOW IN ORGANIZING'

So Says Mrs. Devoe, Who Lays Defeat to Energy of the Politicians.

TACOMA, Wash., Oct. 11.—Commenting on the defeat of Woman's Suffrage in California today, Mrs. Emma Smith Devoe, president of the National Council of Women Voters, says she thinks the result was due to the fact that the politicians organized against it before the movement fairly started.

Success in the State of Washington, she said, was largely due to the fact that the women were thoroughly organized first and made friends in advance, getting so many committed to their favor that the opposition was not able to organize successfully against it.

## REQUEST DENIED IN PETERS APPEAL BY COMMISSION

Former Superintendent of Corporation Yard Will Be Disciplined.

NEW JOB NOT TO CALL FOR USE OF JUDGMENT

Temporary Appointments On Petition Are Allowed by Officials.

Denial of the appeal of H. J. Peters, removed from the position of superintendent of the annex corporation yard by Commissioner of Streets W. J. Bacaus, was set forth in a formal opinion rendered by the civil service commission after hearing the case last night. Peters will not be removed from city employment, however, that action taken being merely of a disciplinary nature.

Peters was removed by Commissioner Bacaus when it was discovered that he was selling grain sacks to gain small sums of money, which he designated as his "tobacco money." Admitting that he had sold the sacks, Peters declared that he had been authorized to do so, and that it was a custom in the department. The order of the civil service commission, unanimously carried, removed Peters from his position, but recommended his appointment to some office not calling for "independent judgment or supervision." Attorney A. P. Stiefvater, appearing for Peters, appealed from this decision and asked for a rehearing. This decision and Stiefvater made no comment as to whether he would take the matter any further in attempting to gain reinstatement for his client.

COMMISSION'S STATEMENT.

The formal statement of the civil service commission is in part as follows: The appellant, testifying before the Board, admitted to doing and also admitted doing the same thing for many months prior to August 1911, but urged in defense of his action that he understood a remark of one of his superiors in the city employment that he was to do so. The Board finds that the appellant is a man of good reputation; that he has been industrious in the city employment; that he has endeavored to give efficient service; that he has acted in selling grain sacks belonging to the city of Oakland were done openly, without dishonest intent, and that he has sold the sacks and keep the money for his own use.

But the Board, while finding that the appellant acted in good faith, and in the opinion that no person should be allowed to fill a position involving the exercise of independent judgment and discretion for considerable quantities of the property of the city of Oakland who possesses so little capacity for judgment and discretion as to sell his duty as to permit him to give the construction which the appellant apparently did to the language of his superior, and to sell his property and keep the proceeds for his own use, even though the amount was only a dollar or less, and to sell his duty to uphold a city employee in the doing of grossly improper acts upon the ground that he knew no better, is completely unsatisfactory of efficient or honest administration. An employee admits he did something which average intelligence at once calls wrong, and he says in substance, "I didn't know it was wrong." For the Board to begin accepting such an excuse as a complete defense would be to encourage misconduct.

VALUE HIS SERVICE.

On the other hand, the Board is of the opinion that the appellant can render excellent service to the city in some position not involving the exercise of independent judgment or supervision. It is the duty of the Board to rid the city service of the incompetent and to place in his position a person who is entitled to recognize, (See Charter, Sec. 81). If an employee is not fit for the position he occupies, he should be placed in one where he can fit; and if there is no place in the city employment to which he can be assigned, he should be discharged.

It is therefore the decision of the Board that the order removing the appellant from the position of superintendent of corporation yard, stationed at the Annex corporation yard, should be and is hereby rescinded. The Board decides, however, that the appellant shall not be entirely separated from the city's services but shall be assigned to a position not involving the exercise of independent judgment and supervision or, in case no such position is now vacant, he shall be placed upon an appropriate suitable list.

TEMPORARY APPOINTMENTS. Temporary appointments on petition from the heads of departments were allowed to be made by the civil service commission as follows: To Commissioner F. C. Turner, department of health; J. H. Mellon, clerk; Mark Ryan, clerk; Electrician department—Roy LeMoine, lineman, and C. Mullin, lineman's helper. Fire department—Ed. Schmitt, fireman; and William Silven, extramural, engine company No. 5.

To Commissioner of Streets W. J. Bacaus, chief clerk; Charles Frost, transferred to position of chief assistant clerk; W. J. Smith, made chief clerk; Mrs. Anna K. Walker, temporary clerk; William L. Wilson, draftsman, city engineer's office.

## STATUS OF THE JUSTICE COURTS IS IN DOUBT

District Attorney's Office Investigates What Effect New Constitutional Amendment Will Have on Felony Hearings

If the opinion expressed by many Oakland jurists is correct, justice courts of the county are automatically dissolved by the passage of Amendment No. 8. The question of the operation of this new law, which has been passed as Amendment No. 12 by the voters of the state, is under investigation by District Attorney William H. Donahue and Chief Deputy Phil M. Carey.

Pending the investigation as to the status of the many justice courts by the district attorney's office, local justice courts with cases pending before them, have been requested to hold action in abeyance until their standing is determined.

It is stated that L. D. Bonnett, who fathered Amendment No. 12 before the legislature, realized after it had been placed upon the ballot that it would automatically put the justice courts out of business and opposed its ratification by the voters of the state. The amendment has been carried, however, and jurists and attorneys are trying to figure out just what the effect of the amendment will be. The city police courts, so far as they handle misdemeanor cases, will be in no way affected by the amendment, as they are created by special charter provision under constitutional authorization. But each police court judge is also a justice of the peace, and in that capacity handles all preliminary examinations and hearings in felony cases excepting those brought under the jurisdiction of the Superior Court by grand jury indictment.

There are at present scores of felony cases for preliminary hearing on the calendar of the two Oakland police courts. The case of Frank Perry, charged with a statutory crime, was before Judge Mortimer Smith in Department No. 1 sitting in his capacity as justice of the peace this morning. Acting upon advice from the district attorney's office, Judge Smith continued the case until the jurisdiction of his court can be determined.

Deputy District Attorney Philip M. Carey notified Judge Mortimer Smith this afternoon that the passage of the amendment, in the opinion of the district attorney's office, will not affect the police courts in their handling of felony cases. The details of the operation of the new law are still under investigation, as there are many vexed points to be determined.

**HARRIMAN LINES PLAN CHANGES**  
Thousands of Invitations Are Sent Out Today to Prominent Citizens.

PORTLAND, Ore., Oct. 11.—Plans for the reorganization of the Harriman Lines in the Northwest were announced by J. D. Farrell, newly-elected president of the Oregon-Washington Railroad and Navigation company, while in Portland. They include the complete segregation of the Southern Pacific and the Oregon-Washington railroad and navigation properties, the appointment of a separate set of officials for the Southern Pacific lines in Oregon and the extension of J. P. O'Brien's jurisdiction as general manager over the Seattle and Portland divisions of the Oregon-Washington Railroad and Navigation company.

O'Brien will be relieved of authority over the Southern Pacific lines in Oregon and a general manager will be appointed to that place. R. B. Miller will be relieved of authority as traffic manager over the Southern Pacific lines in Oregon, but President Farrell did not indicate who his successor will be.

RETRENCHMENT POLICY. It is believed, owing to the retrenchment policy of the Harriman system, that men now serving in official positions here will be given charge of the Southern Pacific district. It is reported that L. N. Fields will be made head of the operating department of the Southern Pacific lines in Oregon, and that H. B. Lounsbury, at present general freight agent, will be given charge of freight traffic. These changes, however, will be made by William Sproule, president of the Southern Pacific company, who will, it is stated, come to Portland shortly after his arrival in San Francisco, which will be about October 15.

Plans for the third division, embracing Spokane and tributary territory, have not been formulated. Until they are, Robert Strahorn will continue as general manager.

**BIDS RECEIVED FOR BULKHEAD**  
Mervy-Elwell Company Lowest Bidder for Key Route Basin Work.

The Mervy-Elwell Construction company of this city was the lowest responsible bidder on the bulkhead to be constructed along the line of the city levee in the Key Route basin by the city when bids were opened at the session of the city council this morning. The Mervy-Elwell bid approximated \$11,000, the estimate of the cost of the work presented to the city by the bulkhead head was first advertised being about \$12,000, according to the figures from the city engineer's office.

Six wharf and dock and bridge construction companies competed for the 300-foot bulkhead advertised for by the city. The work is to be placed for a retaining wall to hold the dredged fill handled by the hydraulic dredge in reclaiming 400 acres behind the city levee in the Key Route basin. To be used as factory and warehouse sites. It was found that because of a soft channel bottom at one point in the levee, the work was continually slipping out. The bulkhead retaining wall, it is believed, will obviate this condition.

The bids were referred to City Engineer Perry F. Brown, Commissioner of Public Works, Harry Anderson of the city attorney and it is probable that the contract will be awarded to the Mervy-Elwell company at the next regular session.

The bids received this morning are as follows:

	Per linear foot.
Mervy-Elwell Co.	\$14.85
Burrell Bridge and Construction Co.	13.50
Cotton Bros.	14.90
Healey-Tibbets Co.	14.95
Hyde-Harjes & Co.	14.20

Following is the letter: "I desire to add my voice of approval to that of others in regard to the movement toward establishing branch offices or wholesale depots on this side of the bay instead of allowing the wholesale trade to be centered in San Francisco. Such a movement is greatly to be wished for and will help all lines of business in Oakland."

## FALLS FROM CLIFF TO DEATH IN SEA

The Body of Unidentified Man Is Taken From the Ocean.

SAN FRANCISCO, Oct. 11.—The body of an unidentified man, who is believed to have fallen off the cliff last night, was recovered from the ocean near the Beach Chalet this morning by J. T. Moran, of 1314 Forty-ninth avenue.

There was nothing on the dead man's person to indicate his name. A watch, which he had in his pocket, stopped at 8:37, giving a clue as to the time of death. The fact that he had one shoe on with a sock missing, convinces the coroner that he had been wading and had climbed up on the cliff and had probably lost his balance. He is described as forty-five years old, black hair, black mustache, low-cut shoes, green suit. He is about 5 feet 5 inches and weighs about 140 pounds.

## GOVERNMENT LUMBER CONTRACT IS RECORD

SEATTLE, Oct. 11.—One of the largest lumber contracts to be placed by the government in many months will be awarded November 4 by the United States quartermaster at Seattle.

The government is in the market for 2,735,560 feet of lumber for use in the Philippine Islands. The government wants the lumber delivered at Seattle, Tacoma or other Puget Sound points, or at Portland.

The bulk of the contract calls for timbers, although a considerable quantity of boards and finishing lumber is also wanted.

Owing to the condition of the lumber market and the keen competition for business, the lumbermen expect that a large number of bids will be submitted.

## FLOOD LOSS REPORTS PROVE EXAGGERATIONS

DENVER, Oct. 11.—With communication with the principal towns in the flood-swept district of southwestern Colorado and northwestern New Mexico re-established, it became apparent that the damage will not be so heavy as previously expected.

None of the principal towns reports serious loss, and advices reaching them from outlying points minimize destruction in the ranch country. The Rio Grande Southern Railway has suffered heavy damage, many miles of track having been destroyed. Rough estimates place the railroad loss at approximately \$1,000,000.

Rumors of heavy loss of life were apparently set at rest. The report of the drowning of twenty Navajo Indians at the Shiprock agency in New Mexico was officially denied today, when communication was established with that point.

## CIGARETTE IS BLAMED FOR DEATH OF 143

NEW YORK, Oct. 11.—That a cigarette caused the fire in the Asche building last March, which cost 143 lives is the statement made by ex-Fire Chief Croker of New York before the public safety commission, which is investigating the catastrophe.

The former chief said that "they can't make them stop it. They seem to think it is a tonic."

Croker said few of the buildings today were fireproof, but that there were no fires in factories where smoking was forbidden and other precautions taken.

## "CURE-ALL" MEN PROTEST.

WASHINGTON, Oct. 11.—Claiming to market practically all the proprietary medicine, drugs and lotions in this country, the Proprietary Association of America yesterday complained to the interstate commerce commission that the rate on the immense volume of advertising matter it ships from New York and Chicago should be 25 cents a hundred pounds instead of 75 cents, which exceeded the value of the shipment.

## BODY BOUNDS FROM TRAIN TO TRAIN

Watchman Struck by One Key Route Car and Hurled Against Another.

Hurled by one speeding train across the space, between car tracks against another train coming from an opposite direction, the body of Matthew Wright, a watchman for the San Francisco, Oakland & San Jose Railway company, was made into a broken and mangled shuttlecock last night at the Oakland pier. The accident occurred when Wright was placing the night lights over the sewer crossing, and, according to the crews of the two trains, was unavoidable.

Wright, who was a married man with a family, was employed as a watchman by the company. He had been detailed to place the signal lights along the Key Route trestle. It is believed that in some way the watchman made a mistake as to which track a train was approaching.

W. D. Hamilton, motorman in charge of the eastbound train, did not see Wright until the train was almost on top of him, and the setting of the emergency brakes failed to save the man's life. Wright's body was hurled into the air and struck the gate of the train coming from the shore, tearing the iron gate and part of the steps from the car. The accident caused a momentary panic in the train, as the reason for the terrific blow against the car was a mystery to the passengers.

W. D. Hamilton, motorman of the train, has surrendered himself to the police in accordance with the usual custom in such cases on a technical charge of manslaughter, pending the findings of the coroner's jury. He has been released on his own recognizance.

STOCKTON, Oct. 11.—Under Sheriff James Y. Coates is to be retired from office on November 1 and will be succeeded by E. Y. Coates, formerly a city clerk of Tracy and at one time connected with a banking institution of that city.

When the board of supervisors was called upon to appoint a new sheriff to fill out the unexpired term of Sibley, Coates presented an application for the office, which, however, was given to Belk. It is said by some that the political aspiration of Coates when Belk was wanted to be appointed as an unopposed candidate caused a breach between the two which entirely healed.

MEXICO CITY, Oct. 11.—Senor Reynald, a candidate for Governor of the State of Chiapas, who desires to change the capital to San Cristobal from Tuxtla Gutierrez, has challenged Senor Torres, recently proclaimed Governor there, to a duel to death to settle the question of Governorship and the location of the capital. # White Bread Eaters

## Beri-beri! What's That?

A recent press dispatch from Paris to the New York American quotes Thomas A. Edison as saying, that in France:

"They (the French) do not unbalance the wheat for the sake of appearance, but retain the gluten qualities in an extraordinary way. I think that most of the indigestion in America comes from the desire to make bread look pretty, and in so doing, unbalancing the wheat, taking from it qualities most essential to nutrition and health.

"It has been found in countries where that dreaded disease known as beri-beri flourishes (Beri-beri is a fatal disease attacking the nerves and nerve centers) that in the process of polishing and whitening rice, elements are taken from the food that, if allowed to remain and be fed to patients suffering from the disease, actually cures them."

In the making of white flour, the vital elements of the hard, outer coat of the wheat are "thrown away," because they darken the flour. Nerve starvation is a natural result.

No one can "beat" Old Mother Nature. She places in wheat and barley certain elements (Diastase, Potash, Lime, etc.) up under the outer shell. Diastase is the element which helps to transform or digest starch and make it useful for the body. The Potash goes to rebuild the gray matter in the nerve cells.

In the Making of

# Grape-Nuts

these brain and nerve building elements are purposely preserved; among them the valuable Phosphate of Potash (grown in the grain), the essential tissue salt of all gray nerve matter.

For growing children, for men and women who work with body and brain, there is no better food than Grape-Nuts.

Grape-Nuts contain all the meat of the wheat and barley from which it is made. A dish of Grape-Nuts and cream is the cereal part of the daily morning meal of hundreds of thousands of people all over the world.

## APPLAUSE GREET MAIDS OF SOCIETY

### The Benefit Given for Fabiola Hospital Great Financial Success.

Society in its gayest plumage turned out en masse last night to witness the performance of some of its prettiest members, who sang and danced for sweet charity's sake at Ye Liberty theater.

The whole performance was decidedly good, especially the comedy "Shopping," which went with a zip and whose lines were really clever and effectively rendered.

There was dash and color in the performance, the songs were catchy and tuneful and the whole received hearty applause.

Herman Heller, who set Willard Barton's "Shopping" to music, succeeded in giving it a light yet graceful and humorous touch befitting the theme.

Of the specialties, a duet between Miss Gregg and Mr. de Young claimed cordial approval, the dancing steps in this being very graceful and catchy. The song, "Visitation," for eight men and girls, was a pretty, lightsome affair and very tuneful. "Daffydils" with its grotesque costume-creating much amusement.

Chris Martinson Lies Unconscious While Footpad Searches Him.

The fourth highway robbery committed in Oakland streets in the last three days was reported to the police by Chris Martinson of 2045 Magnolia street, who was attacked by thugs at Twenty-fourth street and San Pablo avenue shortly after 1 o'clock this morning, and was beaten and robbed by his assailants. A watch and \$6 in coin was taken from Martinson.

Martinson was struck over the head by a thug with some blunt instrument and felled to the ground. The robber searched his pockets and made his escape before the victim recovered from the blow.

Kent's saloon at Twelfth and

Broadway was entered by burglars last night and \$120 was taken from the cash register. It is thought that the burglar concealed himself in the saloon when it was closed for the night, and then made his exit by crawling over the transom of the door.

J. E. Merriam of the Sunset grocery reports that some boys stole a clock valued at \$10 from a vacant house belonging to him.

Miss L. Lee of 1207 Grove street reported to the police that her room was entered during the past few days and a valuable hand-woven silk shawl valued at \$60 stolen.

## SUES TO OUST LEGAL GUARDIAN

### Relative of Mrs. Cora Da Rosa Wants G. S. McComb Removed.

SAN FRANCISCO, Oct. 11.—An action was brought in Judge Trout's court asking for the removal of George S. McComb, clerk of the justice's court, as guardian in the estate of Joseph Da Rosa, and of the person of his widow, Cora F. Da Rosa.

Joseph Da Rosa, a resident of Elk Grove, Sacramento county, died possessed of an estate valued at \$143,000. McComb is a brother-in-law of Mrs. Da Rosa and on the ground that she was of unsound mind, and on his application, he was given charge of the estate.

Today A. F. Da Rosa, a brother of the decedent, declared that McComb was trying to get the widow from her other relatives in Elk Grove and bring her to this city, where he could better control the estates. The court issued a citation in the matter and the case will be thoroughly threshed out.

### UNITED RAILROADS SUES CITY TO REGAIN \$57,285

SAN FRANCISCO, Oct. 11.—The United Railroads of San Francisco brought suit against the city today to recover \$57,285 paid in excess of the dollar tax rate. The claim is made that \$1.25 was fixed as taxes for the fiscal year, whereas there is a dollar limit set down by the statute. The difference in the amount which it would be necessary for the company to pay if only a dollar were charged is the sum sued for.

## \$120,000.00 in Sales at CROCKER HIGHLANDS PIEDMONT

WE ADVISE ALL OUR CLIENTS THAT THEY MUST ACT WITH EXPEDITION IF THEY EXPECT TO SECURE A REALLY CHOICE LOCATION IN CROCKER HIGHLANDS.

Placed on sale Saturday—  
\$120,000 in sales were made up to Sunday night.

And the list of purchasers reads like a page from the Blue Book.

This list includes not only some of the best known bankers, professional men and officers of big corporations around the bay, but a score of persons extremely well known socially.

Just looking at our table of purchasers, up to this date, we regard Crocker Highlands as absolutely established as one of the most EXCLUSIVE and DISTINGUISHED places of residence in this corner of the world.

Competition is very keen to secure those sites with a broad, sweeping, unobstructed view, and such locations are getting scarce.

Bear in mind that Crocker Highlands is right on the line of the Key Route extension to San Jose, work on which is just about to begin—that a ten minute service will be established between Crocker Highlands and San Francisco—that it is but ten minutes by the Grand avenue cars from Fourteenth and Broadway, the heart of Oakland—that the approach to Crocker Highlands is by "Oakland's finest avenue" through a chain of splendid parks—that with the completion of this avenue through the property Crocker Highlands becomes the NEAREST Piedmont property to the center of Oakland, "The Portal of Piedmont"—that included in the purchase price are macadamized streets, concrete sidewalks, curbs and gutters, sewers and water, while gas and electricity are extended through the principal avenues—that moderate prices prevail—that the terms of payment are 10 per cent down and 1 per cent a month—that there is no interest or taxes till 1913—and that Crocker Highlands is the LAST view property in Piedmont at these moderate prices.

Actor Who Recalls Days  
of Warfield's Struggles

Bell Favorite Adds to Long List of Anecdotes by Telling the Latest Concerning Warfield's Early Beginnings.

David Warfield, if he sees fit to do so, is perfectly justified in rushing into court with an application for an injunction restraining further publication of the intimate details of his humble and hungry beginnings in San Francisco. Cited as the most shining example of brilliant rise from the vale of insignificance to the pinnacle of Parnassus through sheer persistence, labor and inherent talent, of him scores of anecdotes have been told and retold—and they're still being told.

Come now John Terry, of the clever team, Terry and Lambert, now playing at the Bell, with the latest concerning the rise of the star of Warfield's reminiscences. His is a tale of adversity calculated to cause expressions of sympathy and pain to fleet across the face of a basalt cliff.

Bumps into Warfield. "I ran away from home and landed in San Francisco," said Terry. "How far?—and why?—he didn't choose to explain. After finding myself for warfield's coffee money for many a day, I bumped into Warfield, who, with a number of other men consumed with the desire to lighten the tone of the stage, was hanging around the Baldwin Hotel."

"Was the free lunch there so superior?" Terry was asked. "I am not saying," he replied. "Anyhow, it looked mighty palatable to both of us. We began to feel the necessity of action, else actual starvation glared in our faces. The wolf wasn't hanging around our door. He had hustled right into the house, and had driven us up the chimney. Then we got in touch with an angel."

Starts to Write Play. "I was to write the play, and with Dave we began to write. The production, the angel doing the heroic hero stuff. At the home of our patron saint we ground out reams after reams of a play, and I felt pretty important for I had been an actor just six months."

Here ensued a prolonged pause. "And that angel production?" Terry looked vacantly at a water wagon driver sneaking up on a group

## COLLIDE HEAD-ON

Both Men Sustain Severe Bruises and Cuts as a Result.

While speeding along the boulevard late last night, Chris Loretz of 5515 East Nineteenth street, and Alfred Jurgenson of Twenty-seventh avenue and East Fourteenth street, traveling towards each other, collided with their motorcycles. Both machines were badly wrecked and the riders were hurled several feet through space before striking the ground. Loretz sustained many ugly cuts and bruises, along with fractures of the second toe of the right foot and the index finger of the right hand.

Jurgenson's most serious injury was a contusion on the head, with a possible fracture of the skull above the left ear. The youths, Loretz being 20 and Jurgenson 19 years, were treated at the Receiving Hospital and taken to their respective homes.

## LAY CORNERSTONE

## OF NEW TEMPLE

Hundreds of Masons Present at the Ceremony Across Bay.

SAN FRANCISCO, Oct. 11.—The cornerstone of the new Masonic temple, at the junction of Van Ness avenue, Oak and Market streets, was laid this afternoon. Nearly 1000 Masons of various degrees, most of whom are in attendance at the annual communication of the grand lodge of the jurisdiction of California, now in session in this city, marched in parade formation from Golden Gate Commandery hall, where the grand lodge is meeting, to the site of the temple. There were in line twelve commanderies of Knights Templar, two uniformed Scottish bodies and thirty-two side lodges, all in the full regalia of their rank. The parade was one of the most spectacular Masonic displays ever seen in this city.

Grand Master Dana R. Weller of Los Angeles presided at the cornerstone ceremony, and the oration of the occasion was delivered by Samuel M. Shortridge. Prior to the start of the parade the annual oration of the grand lodge was made by Judge Albert G. Burnett of Sacramento, grand orator of the jurisdiction.

Tomorrow afternoon the annual memorial services will be held, commencing at 2 o'clock, in honor of the memories of Grand Masters Wiley M. Tinnin and Edmund C. Atkinson. Memorial addresses will be made by George H. Church and Edmund C. Atkinson.

The annual election of officers will be held Friday morning, and in the afternoon the members of the grand lodge will cross the bay to take part in the ceremonies attending the laying of the cornerstone of Oakland's new city hall. President Taft will be present.

Reports of the grand officers, read at yesterday's sessions of the grand lodge, show that the order in California has gained 2181 members during the last year, the membership at present being 45,836, the largest in the history of California Masonry. Four new lodges were installed during the year at Upland, Kernan, Inglewood and Eagle Rock.

STRUCK BY STREET  
CAR AND KILLED

Frank Stoffer Meets Almost Instant Death When Hit by Vehicle.

SAN FRANCISCO, Oct. 11.—While crossing the tracks on Guerrero street between Twenty-third and Twenty-fourth shortly before 9 o'clock this morning, Frank Stoffer, a carpenter, 45 years old, of 1089 Dolores street was struck by a car and almost instantly killed. The car was moving at a lively rate and was not observed by Stoffer, who was thrown heavily. He was removed to St. Luke's hospital, but was pronounced dead on arrival.

BOHEMIANS COME WEST. GROVILE, Oct. 1.—Upon the representations of an employment agency located at Kansas City that they could earn \$5.50 a day laboring here, a carload of forty Bohemians have arrived here. They established camp near Grovile and then found that they had been misled. They appear to have no recourse against the company that sent them, and it is feared that they may become a burden on the community, as there is little for them to do here now.

A Des Moines man had an attack of muscular rheumatism in his shoulder. A friend advised him to go to Hot Springs. That meant an \$180 or more. He sought for a quicker and cheaper way to cure it and found it in Chamberlain's Cough Remedy. After the first application of this liniment he was well. For sale by Osmond Bros., Drug Store.

UNGUARDED CONVICTS. ATTEND SALEM THEATER. SALEM, Ore., Oct. 11.—Twenty convicts from the Oregon penitentiary were permitted by Governor West to go unguarded to the Salem Opera House last night to listen to an address by Commander Eva Booth of the Salvation Army. Commander Booth spoke at the penitentiary in the afternoon, but twenty of the prisoners were working outside under guards, and so were unable to hear her. The governor gave them permission to attend the night meeting, and they occupied places of honor in the boxes.

Introducing Miss Booth, the governor declared that it was in his power to give his daughter any career he wished, but he would expect that she follow in the footsteps of Miss Booth.

## HERE IS A REAL

## DYSPEPSIA CURE

No Indigestion, Gas, Sourness or Headache Five Minutes Later.

The question as to how long you are going to continue a sufferer from indigestion, dyspepsia or out-of-order stomach is merely a matter of how soon you begin taking some Diapiesin.

If your stomach is lacking in digestive power, why not help the stomach to do its work, not with drastic drugs, but a re-enforcement of digestive agents, such as are naturally at work in the stomach.

People with weak stomachs should take a little Diapiesin occasionally, and there will be no more indigestion, no feeling like a lump of lead in the stomach, no heartburn, sour risings, gas on stomach or belching of undigested food, headaches, dizziness or sick stomach, and, besides, what you eat will not ferment and poison your breath, causing nauseous odors. All these symptoms resulting from a sour, out-of-order stomach and dyspepsia are generally relieved in five minutes after taking a little Diapiesin.

Go to your druggist and get a 50-cent case of Diapiesin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know you are not going to be any more bad nights and miserable days for you. They freshen you and make you feel like life is worth living.

The company will also be supplied for domestic and irrigation systems. James D. Stewart, lessee and general manager of the United Water and Power company at Kansas City, which owns large water rights, is interested in the concern. The company will soon be incorporated and will spend approximately \$500,000 on its projects.

He is very indignant at the action of the Idaho authorities in sending bank-bills all over the United States and Canada with the picture of him used on his campaign posters, when he was a candidate for Governor of Idaho last year.

Butte cut off by great storm

Southwestern Montana in Grip of Snow King; Traffic Halted.

POCATELLO, Idaho, Oct. 11.—Southwestern Montana is in a grip of a terrific snowstorm that has cut off Butte from communication with the outside world today. Every telegraph and telephone wire into Butte has been leveled, communication ceasing at Helena and Deer Lodge on the north and Dillon on the south.

Before the Oregon Short Line wires ceased operation it was reported that over two feet of snow had fallen; that all street car service was suspended and that many power circuits had been put out of commission. All trains south of Butte are running on delayed schedules, but none has been stalled by drifts so far as known.

GIRL'S PARTLY CLAD BODY IS DISCOVERED

SANTA CRUZ, Oct. 10.—The bodies of a young woman and an elderly man are at the morgue here awaiting identification. Both were discovered yesterday.

The young woman's body was found in a lagoon near Wilder's Beach, where it had been cast at high tide. The girl was only partly clad and it is believed she was drowned while in bathing.

With the head severed from the torso, the man's body was found in the brush near Glenwood. His husband bore the initials "T. C. F." Murder is suspected.

The pulpit agitator is not a favorite in this state. His antics

—CHICAGO RECORD.

The president of the Distillers' Association has been sending out letters over his own signature asking his friends to support the candidate endorsed by the Anti-Saloon League, and one of these letters fell into the hands of the Louisville Courier-Journal, which is loudly jeering at this new combination of Bliffl and Black George, of the teetotallers and the distillers. It is strange that an enterprising politician cannot be permitted to quietly make a few private deals without being bawled out in this unseemly way.

Few people are satisfied with what others say is good for them.

## HAIR RIBBON IS CAUSE OF DEATH

Blinded Driver of Electric Auto and She Runs Down Woman.

CHICAGO, Oct. 11.—A girl's hair ribbon was responsible for the death of Mrs. William Kirkton, of Evanston, who was run down Monday in Evanston by an electric runabout, driven by Miss Gertrude Morley.

The evidence was brought out at the inquest yesterday in which Miss Morley testified that she did not see Miss Kirkton at all until after she was run over, and that her vision was cut off by a large hair ribbon worn by a girl friend, who ran directly in front of her.

## MACK HAS FAITH IN NEWSPAPERS

Declares He Would Spend 50 Per Cent of Campaign Fund in Ads.

NEW YORK, Oct. 11.—"I can tell you, gentlemen, that the only way to promote a campaign nowadays, is to advertise in the newspapers," said Norman E. Mack, chairman of the Democratic National Committee, in an address at the banquet of the Sphinx Club, an organization of advertising men.

"I would spend fifty per cent of all the campaign fund for newspaper advertising," he continued. "Should I ever run a campaign again, I would employ this method for it is the only way. The gumshoe method is passed and newspaper advertising is the keynote of success."

## Clean pots and pans with GOLD DUST

Germes of decay accumulate on oft-used pots and pans, and ordinary soap and water only clean off the surface.

Gold Dust does the work—and does it right. It digs deep after germes, cleans like a new whistle and leaves your pots and pans as new, as bright as the day they were new—and sanitarially safe.

Gold Dust does this work in just half the time required by soap or any other cleanser. Does it better, too.

Gold Dust cleans everything like magic.

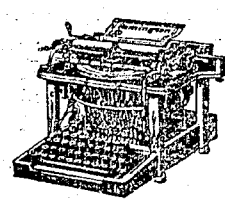

"Let the GOLD DUST TWINS do your work."

Do not use soap, naphtha, borax, soda, ammoniac or kerosene with Gold Dust. Gold Dust has all desirable cleansing qualities in a perfectly harmless and lasting form.

## MISS EDNA BIRCH BECOMES BRIDE OF CHARLES WAHL

MRS. CHARLES WAHL of Astoria, who was formerly Miss Edna A. Birch of this city.

Announcements were received by many of the friends of Miss Edna A. Birch in Oakland today of her marriage in Portland to Charles Wahl, a prominent young business man of Astoria. The wedding was solemnized at the Episcopal church in Portland in the afternoon and was followed by a wedding supper at the home of the bride's sister, Mrs. T. E. Lennard.

Friends of the bride, who was formerly well known in the younger set in this city, learned of her engagement to Charles Wahl this afternoon, when the announcement was given out by her sister, Mrs. Frank Oestreich, of 233 Lawton avenue, in this city. The story was then told of a pretty romance growing out of a meeting between the two young people at the summer home of the bride's sister at Seaside, Ore., where Wahl was a guest for several weeks during the summer.

Mrs. Wahl is a daughter of Mrs. E. M. Birch, formerly of this city. Both she and her two sisters, now Mrs. Lennard and Mrs. Oestreich, were well known in Oakland and Berkeley, as the family resided in Oakland for many years. Mrs. Birch is a guest of Mrs. Lennard in Portland and was present to give away her daughter at the ceremony in that city.

Following the wedding supper at the Lennard residence in Portland, Mr. and Mrs. Wahl left upon an uneventful wedding tour. It is probable that they will visit Oakland before taking up their permanent residence as Wahl has been contemplating going into business in this city.

WITCHITA, Kan., Oct. 11.—While in this city for the purpose of delivering a popular lecture last evening, Speaker Champ Clark of the House of Representatives walked over to the corner of First and Main streets and told to the friends and newspaper men who accompanied him, the story of his first start as a young attorney in the basement office at that corner, back in 1875.

Clark did not deny the story that after about a year of fruitless attempt to establish himself as an attorney in Wichita, he cut corn long enough to earn money to leave the country.

At a banquet given by the Commercial Club in his honor here last night, Clark spoke briefly:

"I am not ashamed of the fact that I am lecturing," said Mr. Clark. "I am not ashamed to take money for lecturing. We politicians feel that 'lecture money' is clean money, anyhow."

JOHN D. PROUD OF WEIGHT.

GRANT SCHOOL  
FETE IS SUCCESS

WILLIAM BILGER.

The children of the Grant school will soon have an opportunity to enjoy an outdoor gymnasium, which is to be purchased with the proceeds derived from the fete held last Saturday afternoon in the school grounds. It is estimated that more than \$900 was realized at the festival, which was a brilliant success.

Many of the graduates of the Grant school assisted their parents at the booths. The boys and girls of the Grant school also aided in the concessions. Among them were William Bilger, who was one of the enthusiastic patrons at the fete.

Miss Bernice Sholl was elected president of the graduating class of the Grant school at a meeting held yesterday afternoon. The class colors are red and white and the graduation pin will be patterned from that of the class of 1910. The members of the outgoing class are seeking a class motto which will serve as an incentive and an inspiration for the boys and girls to follow throughout life.

## Ever See Perfect Woman? Here's Her Measurements

CAMBRIDGE, Mass.—All women who desire to be perfect physically—and what woman doesn't?—must abandon for all time rats, puffs, wire frames, hobble skirts and the habit of sticking pencils into their hair.

This is the ultimatum given by Dr. Blanche A. Denig to the members of the Stenographers' Mutual Association. Furthermore, they must be careful of their diet, their eyes, their sleep and observe a few more of her health rules.

Dr. Denig then told of the measurement of the perfect woman as seen through the eyes of the medical world. Her weight should be 115 pounds. Her height 5 feet 5 inches. Her outstretched arms from finger tip to finger tip should be equal to her height. Around her waist this perfect woman should measure 29 inches. Her bust measure should be 34 inches, and over her arms 35 inches. Her hip measure should be 35 inches. Her dainty ankle should measure 8 inches and her wrist 6. The depth of her chest should be one-fifth of her height. She should have 28 pounds of fat. Her skin should weigh 10 pounds.

This perfect woman, who is the normal woman, should generate every twenty-four hours 12,614 degrees of heat, or enough to raise 864 pints of water from zero to the boiling point.

## Seeks Divorce From His 'Unkissed Bride'

NEW YORK.—Edward V. Gambler, whose "unkissed bride" lost her separation suit against him, declared in court today that he has "sufficient evidence" on which to obtain absolute divorce. There is only one ground for that in New York. Gambler asked leave to discontinue his suit for annulment and substitute a divorce action. Judge Pendleton reserved decision.

"This is another gratuitous insult heaped upon this little woman by a far from cavalier man," declared her counsel. Throughout the trial of her separation suit, Mrs. Gambler alleged her husband had never shown any signs of affection for her, while Gambler, in his defense, alleged that his wife repulsed him whenever he tried to show affection.

Mrs. Gambler comes from Atlanta, Ga., and the two were married in this city on April 23, 1910, after she had once refused him and later made a proposal of marriage to him.

Mrs. Gambler is 25 years old, while her husband, who is the cashier of the Merchants' Exchange National Bank, is 50.

"I had a mighty queer surprise this morning," said the local stock broker. "I put on my last summer's thin suit on account of the extraordinarily hot weather, and in one of the trousers pockets I found a big roll of bills which I had entirely forgotten."

"Were any of them receipted?" asked a listener, who seemed to be a pessimist. "Cleveland Plain Dealer."

## Cultivate a Youthful Appearance

By LILLIAN RUSSELL

(Copyright, 1911, By Lillian Russell.)

THE youthful appearance of a person depends chiefly upon the complexion and expression.

To keep the complexion fresh one must not use soap on the face more than once a day, and that at night before retiring. Then wash thoroughly with hot water and pure soap. When the skin is quite clean and warm gently rub in a lanolin cream unless the face is inclined to have much down upon it. In that case buttermilk or a jelly cream is better.

Massage should never be done by an amateur. Patting the face while the cream is on until it is quite flushed will have the same effect as massage and cannot hurt the muscles, while often more harm than good is done by incorrect facial massage.

Of great importance to the freshness of the complexion is a regular daily cleaning of the intestines. Then the condition of the liver is of great importance. Laxative fruits, such as grapes, prunes or apples should be eaten every day.

Bodily exercise is indispensable to a clear skin and a bright eye. Long walks in the open air circulate the blood and improve the periphery of the body, and thus also are the face and nutrition of the tissue of the skin improved.

Little meat and much lacto-vegetable food should be eaten. A bright, cheerful person with a good disposition generally has a clear complexion. People who give way to anger, grief, sorrow or passion generally have lines and wrinkles, though they may be young.

Hot baths are of great benefit to the complexion of sallow people, as they promote a better circulation of the blood through the tissues of the skin and a great improvement to the functions of the skin.

The condition of the teeth is of the utmost importance to a youthful appearance. Everything should be done to keep them in good condition from childhood. The ruin of the teeth can be brought about by external as well as internal abuses. The former are less dangerous because they are chiefly of bacterial origin and can be prevented by thoroughly cleaning; much more serious and sometimes even unavoidable are the internal causes. If the gums are not sufficiently supplied with blood they can be massaged by your thumb and finger, rubbing them up from the jaw, starting circulation, which cures receding gums.

Youthful looks also depend upon the hair, which should be kept clean at any cost.

No one can look young who is too fat, so strict diet is necessary.

Remember: A business woman must keep the semblance of youth as well as the reality of beauty.

or kerosene will sometimes remove them.

**ANXIOUS—Blackheads** appear frequently on persons whose circulation is sluggish, who suffer from indigestion or whose skin is inactive. Others are often due merely to neglect. There is but one way of getting rid of blackheads, and that is by thoroughly cleansing the clogged pores. If you will send me a self-addressed, stamped envelope I will send you my simple treatment for removing blackheads from the skin. Once rid of them, you need never again be troubled with them if you follow carefully my advice.

**ANXIOUS—I** am sending you by mail directions for taking olive oil and lemon juice to remove the yellow tinge from your complexion, which is caused by torpid liver. There is really no excuse for a bad breath. Nothing gives a person such a sense of personal grievance against another as to have one puff into the face a disagreeable breath. Diseased condition of the nose, sore throat and bad tonsils, decayed teeth and diseases of the lungs and stomach are among the causes of a bad breath. If your stomach is out of order it should be seen to at once, not only because of the offensive breath which it produces, but because of the ill effects of indigestion and constipation on every part of the body. I think you will find that you will not be troubled with a bad breath when you overcome the constipation by taking olive oil and lemon juice. Here is the recipe for an excellent lotion to sweeten a tainted breath: Seven and one-half drams of salicylic acid, fifteen grains of flower water, fifteen grains of oil of peppermint, one quart filtered water and one pint of alcohol. Mix the oil of peppermint with about two ounces of the alcohol; add the remainder to the water and warm it; then dissolve the acid in it and while still warm add the perfume water and tincture of peppermint. Use this two or three times a day.

## Women in the News Today

**WASHINGTON, Oct. 11.**—The presence at Hot Springs, Va., of Prince Ludovico, a Spanish nobleman, and Miss Gladys Hinkley, of whom Ambassador Rosen of Russia, said, "She is the most beautiful woman I have seen in America," has given Washington an inspiration for a new international romance.

The prince, according to all accounts, left Europe and came like Lochlinvar into the West to seek the most beautiful woman.

The prince has been at Newport and at Bar Harbor, but never has announced success or failure in his gallant quest.

He met Miss Gladys Hinkley, it is said, at Bar Harbor, and met many brilliant and beautiful women at Newport.

## Sues Widow

TONOPAH, Oct. 11.—Suits was begun by John O'Keefe of this city yesterday against Mrs. Mary Manning of San Francisco, the Tonopah-Belmont Development Company to restrain the company from transferring 12,200 shares of stock, valued at more than \$100,000, to Mrs. Manning.

Mrs. Manning is the widow of Patrick Manning, noted about a month ago in San Francisco, and whom O'Keefe says he grubstaked.

When the Belmont company was organized Manning received \$50,000 in cash and 20,000 shares of Belmont stock from the company for several mining claims he had located on Mount Oddie, but made no settlement, it is said, with O'Keefe.

## Americans Home

NEW YORK, Oct. 11.—The steamer Kron Princess Cedie brought a record number of homecoming Americans to this port yesterday. Mrs. Collis P. Huntington, the millionaire widow of the late railroad magnate, returned from a three months' visit to Europe and brought with her \$8000 worth of Parisian gowns. Ogden Livingston Mills, treasurer of the Republican county committee, who recently married Miss Margaret Rutherford, the daughter of Mrs. William K. Vanderbilt, came home with his bride. Other passengers were Isaac Guggenheim and Fernand Almazan, stage director of the Chicago Opera House.

## Mayor's Wife Hurt

HILLSBOROUGH, Oct. 11.—Two residents of this town were injured severely yesterday by accidents resulting from unruly horses they were driving.

About 5:30 o'clock this afternoon while George H. Howard, town trustee, and capitalist of this place, was driving to the Burlingame club, his horse became fractious, upset his rig and dragged him about 200 feet, despite the efforts of Jack Howard, a San Mateo contractor, to stop the animal. The trustee was bruised badly. He was taken to his home in the automobile of Daniel T. Murphy. While driving in a buggy in East Lane yesterday Mrs. Eric Lange, wife of the

The comely young woman threatened in vain to appeal to the German Emperor.

Mrs. Von Claussen's incoherent talk during the hearing was enough to convince Magistrate Herbert that she was not well balanced mentally.

She was taken before the magistrate as a result of her action in sending a telegram to Justice Greenblatt, Supreme Court threatening him if he did not see that justice was done in her effort to set aside a divorce she obtained from her former husband, Dr. William Francis Honan, five years ago.

## Finery for Indians

STANFORD UNIVERSITY, Oct. 11.—Weird and wonderful are the packages of finery now being collected about the campus by the co-eds for distribution among the Indians of Northern California.

Ribbons, trinkets, hats, laces and feathers which recently decked the college girls are being solicited by the social service committee of the Young Women's Christian Association, with headquarters at the Delta Gamma sorority house.

The finery will reach the Indians in time for Christmas.

## Is Home Lover

NEW YORK, Oct. 11.—Housework and not grand opera is the vocation for which Mme. Gadski, the famous diva, will train her daughter, Miss Lotta Tauscher, who arrived yesterday with her mother and father, Hans Tauscher, on the Kron Princess Cedie. Mme. Gadski left yesterday to begin her concert tour in Wisconsin.

## To Wed Again

LITTLE ROCK, Ark., Oct. 11.—Announcement was made in this city yesterday of the approaching marriage of United States Senator Jefferson Davis and Miss Lela Carter of Ozark, Ark. The ceremony will take place at Ozark, Thursday. Senator Davis will leave with his bride immediately after the ceremony for an extended trip on the Pacific Coast. He is a widower.

## Weds Nurse

PHILADELPHIA, Oct. 11.—Brigadier General A. W. Hoyt, U. S. A., stationed at St. Paul, Minn., and Miss Cora M. Harbold, daughter of Mrs. Mary Harbold of Harrisburg, Pa., were married here yesterday. The bride was recently graduated as a trained nurse.

## FROM FAME TO FIRE, FATE OF EVANGELINE

CHICAGO, Oct. 11.—Evangeline, the Borine which assumed the role of "Mrs. O'Leary's Cow" in the fire show at Grant Park, Monday night, has been cast for another part in the automobile fall festival.

This was made known yesterday when it was announced that a barbecue is to be held Saturday night. Evangeline has been chosen as the big feature of the occasion, so when the show is over, the cow will be served to the automobile men.

## HILL BRANDS ALDRICH REFORM AS UNSOUND

### TAFT LEAVES TACOMA TODAY

At Olympia, President Is Guest of Governor Hay at Luncheon.

Continues His Tour Through Southeastern Washington and Oregon.

TACOMA, Oct. 11.—President Taft left Tacoma early today for Olympia, southeastern Washington and Oregon. He was the guest of Governor Hay at luncheon today and made an address in the capitol. South of Olympia stops were made at Centralia, Chehalis, Castle Rock, Kelso, Kalama and Vancouver, Wash. At most of these places the President made rear platform speeches. He is due to reach Portland at 10 o'clock and will be the guest of that city until early tomorrow morning.

#### REACHES OLYMPIA.

OLYMPIA, Wash., Oct. 11.—The Taft special reached the capital of Washington on time. The President was driven with Governor Hay immediately to the capitol building. Before making his principal address to several thousand persons, Taft stopped to exchange courtesies with several hundred school children. He put several questions to the children, but there was only one apparently that they could not answer. "Who is this with me?" inquired the President, turning to Governor Hay.

"We don't know, sir," answered a score of voices, and the crowd laughed.

"Well, he's your Governor Hay," continued Taft, with a laugh.

"Yes, sir," dutifully echoed the children.

The President spoke from the capitol steps. He chose the tariff votes for his subject, and explained how the bills came before him, declared that reciprocity is a dead issue, "at any rate, a dead issue at present."

"It's pretty hard nowadays to tell who is a Republican and who is a Democrat," said the President, in beginning his speech.

The President congratulated Washington on the "progressive legislation" that has been adopted in the State, and said that he was especially interested in the workmen's compensation act, a subject now being considered by a special commission appointed by Congress.

While the President was speaking the body of H. A. Fairchild, public utilities commissioner of the State, who died suddenly, was lying in state in the capitol.

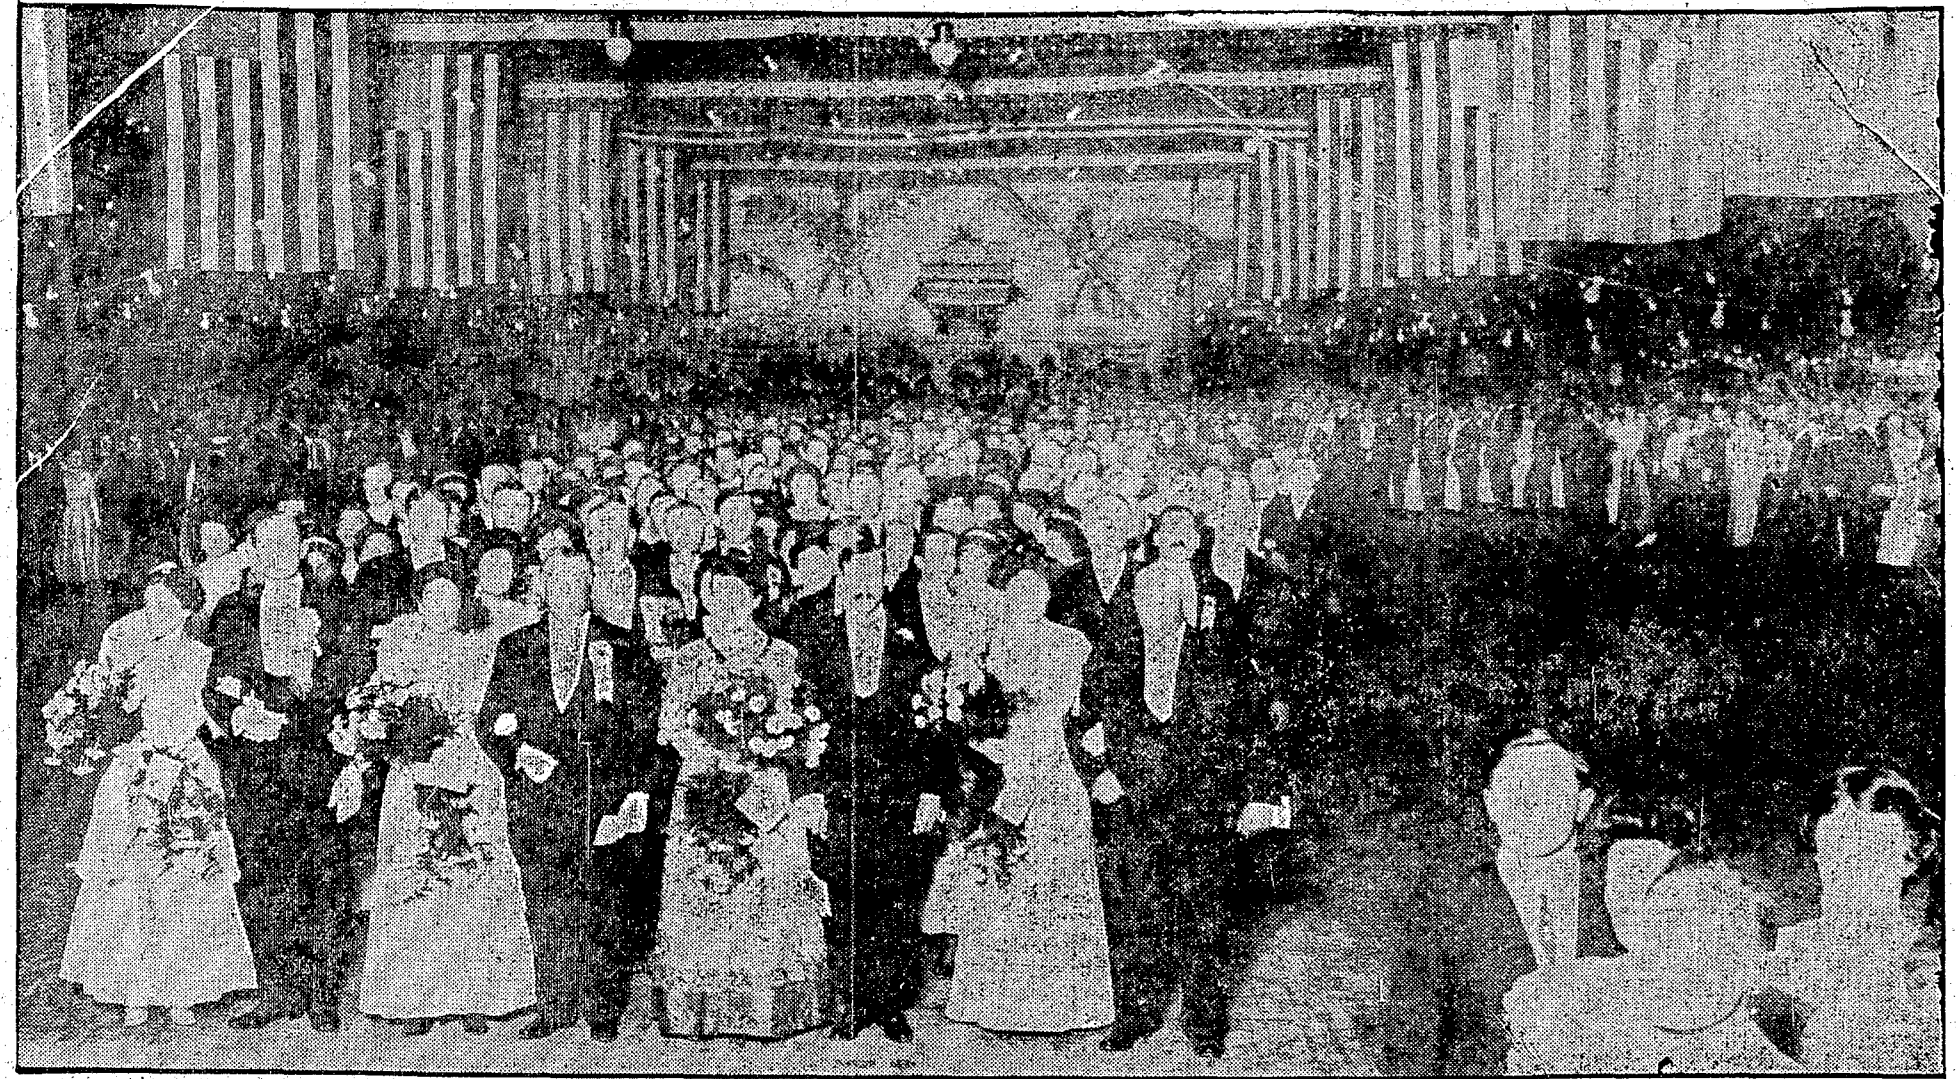

#### VANDERBILT RECORDS, NOT.

STANFORD UNIVERSITY, Oct. 11.—Vanderbilt cup records will not go into eclipse when I. I. Ingram and R. R. Rounds, both juniors in college, race each other in their "vest pocket" automobiles Saturday morning to settle a bet.

The course selected lies between a water tank on the county road behind the campus and the Stanford bookstore, near the quadrangle, a distance of half a mile.

### POLICEMEN'S BALL IS THE MOST BRILLIANT AFFAIR OF THE PRESENT SOCIAL SEASON

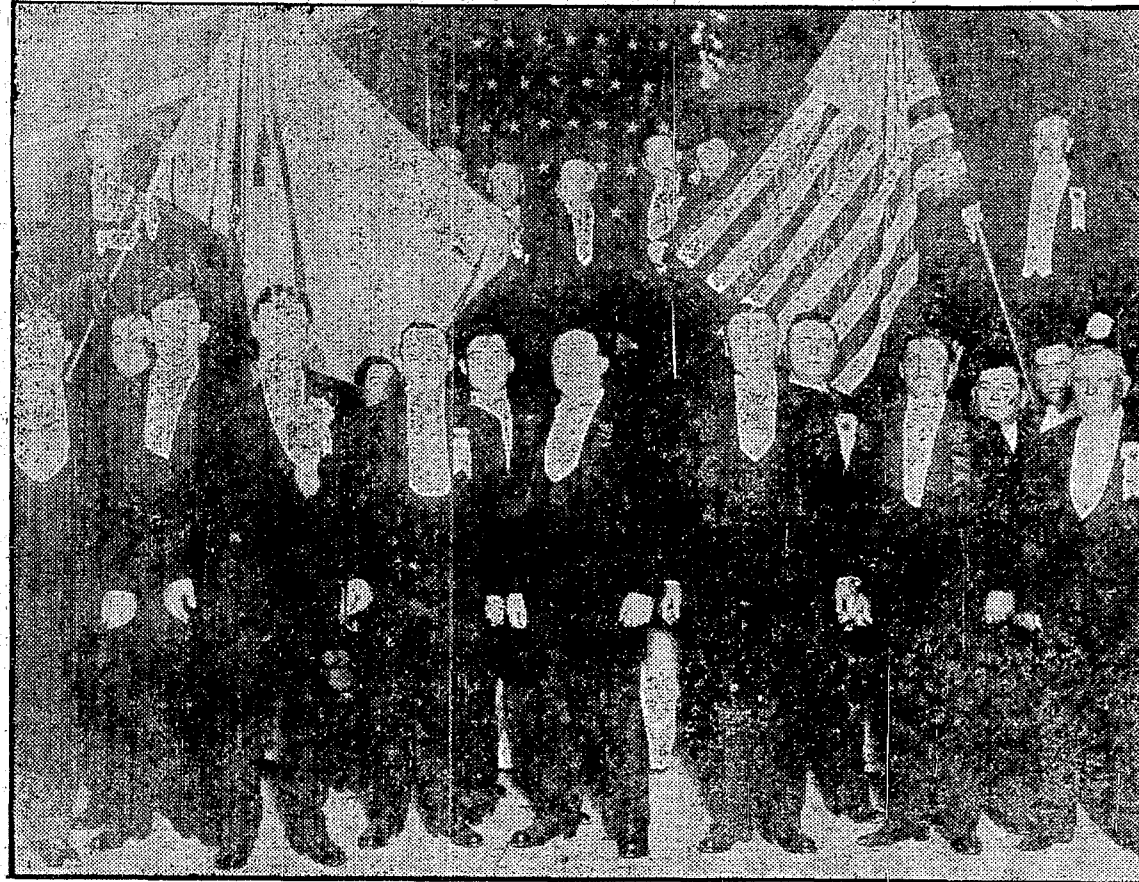

#### HUNDREDS THROG THE PIEDMONT PAVILION WHEN BIG BENEFIT DANCE IS GIVEN

### 4000 STRIKING SHOPMEN PAID

The Payroll of Illinois Central Mechanical Department Totals \$200,000.

CHICAGO, Oct. 11.—The 4000 striking shopmen formerly employed at the Burnside shops of the Illinois Central railroad were paid their wages for September today. The payroll aggregated \$200,000 and a large force of clerks were busy disbursing the checks. The strikers were paid from four booths, which previously had been built in the fence surrounding the plant.

Grand march at the police ball at Piedmont pavilion last night, and (below) presentation of stand of colors by Mayor Mott.

### Mayor Mott Presents Department With the American Flag as Token of His Appreciation for Work of the Force

The third annual ball for the benefit of the Widows and Orphans' Aid association of the Oakland police department last night in Piedmont pavilion was a record-breaker in the matter of the size of attendance, the pleasure of the guests and the volume of the proceeds for the replenishing of the fund of the organization.

There were not fewer than 3000 people in attendance, and whether or engaged in the diversion of the dance, there was not a person who did not seem to enter into the spirit of the occasion.

While the throng of dancers was the largest that probably ever assembled at a single entertainment in this city, at the same time there was sufficient room for all of them on the floor, for the reason that the on-lookers remained well within the rows of seats provided for them and thus left the dancers to avail themselves of the ample dimensions of the floor.

#### TWENTY-FOUR DANCES.

The dance program comprised twenty-four dances, but there was not one of them which was not enjoyed several times, and the encores were allowed, too, through the magnanimity of Bailiff Charles McCarthy, the floor manager, who discharged the duties of his office with painstaking solicitude and ability. The music was rendered by McBain's band.

There was an elaborate scheme of decoration, which lent a charm to

every part of the dance hall. Evergreens, flowers, ferns, bunting and flags were artistically twined against the ceiling and fastened to the side walls, while the stage, where the music was located, was embowered in boughs and palms.

There was system in every feature of the great display, for the reason that there were officers assigned to the several duties inseparable from a gathering of the kind. A number of these were in their official uniforms.

There were a large corps of the force, the members of which were attired in evening dress and who had to do with the social features of the entertainment.

#### ALL REPRESENTED.

There were present representatives of every respectable class of people in the city, as well as of the professions, commercial and industrial life. County officials, as well as those of the city, swarmed and seemed to as greatly appreciate the occasion as did the officials at the opposite end of the city. In reaching the pavilion, hundreds of automobiles were used, and around the great structure all the streets were crowded with machines, the lamps of which gave a weird illumination to the scene.

The cars on the line of the Oakland Avenue bore most of the pleasure-seekers to the scene and these, for a couple of hours, were so crowded that they made no stops for other patrons after leaving Fourteenth street going in the direction of the hall.

While the throng was assembling, the band played a few instrumental

pieces, and then, after a fanfare on a bugle, silence was proclaimed through the hall and hundreds of guests advanced toward the stage, where Mayor Mott had made an appearance.

The mayor spoke for a few moments, stating briefly but earnestly his appreciation of the efforts at improvement and increase in efficiency of the police force and, in appreciation of that fact, he desired to present the command with an American flag, around which they could rally and which they could follow in their annual appearance in procession.

The mayor's efforts were greeted with cheers, both by members of the command and the guests.

#### ACCEPTS COLORS.

Captain Walter Petersen accepted the colors in an eloquent speech, in which he stated that the flag of the nation stood for order and that it was but proper that it should be the cherished symbol of a police force, which was intended to protect and conserve order in the community.

The band then played the "Star Spangled Banner," and Captain Frank Lynch seized the standard and waived it in rhythm with the inspiring strains, the people at the same time indulging in cheers.

This was followed by the grand march, at the head of which were Mayor and Mrs. Frank Mott, Commissioner and Mrs. Fred Turner, Commissioner Harry Anderson, Commissioner John Forest, Chief of Police Wilson and his daughter, Mrs. W. Walker; Captain and Mrs. Frank Lynch; Captain and Mrs. Walter Petersen, after which fell in a number

### ASKS BANKERS TO MAKE CHANGE

Railroad Man Admits United States Has "Inelastic Currency."

Says Political Connection Is Inherent in Proposed Reserve Association.

SPRINGFIELD, Oct. 11.—Characterizing as "uneconomic and therefore unsound" the business relations between the Central Reserve Association and the United States government proposed by former Senator Nelson A. Aldrich in his plan for currency reform submitted to the federal monetary commission, James J. Hill, chairman of the board of directors of the Great Northern railroad, addressing the Illinois Bankers' Association here today, urged the bankers of the country to perfect a plan that would be under their own control.

Hill, admitting at the outset that the "United States has the most inelastic currency system in the civilized world," declared that Aldrich and his associates had done a memorable work and that "it should be received with great respect," but that it also should "be studied with great care."

That political connection is inherent in the constitution of the proposed reserve association was Hill's chief criticism of the Aldrich plan. In this connection Mr. Hill asserted that if currency reform was not carried through under leadership of the bankers of the country, it would be taken up by Congress and suffer the same fate that has befallen every other great economic issue after it became the football of party politics.

#### PLEAS FOR REFORM.

Hill also made a plea for agricultural reform, declaring that unless this is done "the farm will fail and the foundation of all our prosperity be undermined."

"I want to make one earnest suggestion about this so-called Aldrich plan to the bankers of the country," said Hill. "Take it up for yourselves, perfect it by the light of your business experience and make it your own enterprise, under your own initiative and subject to your own control. Instead of creation of federal law. Shape your own association for yourselves, and ask Congress for authority under wise legislative regulations, there such may be necessary, to do this thing, instead of surrendering your rights as well as your obligations for all time to a political power. There is no part of the scheme outlined which you cannot plan and execute for yourselves better than any Congress can do it for you. Your state associations and the American Bankers' Association furnish all the necessary machinery."

"It is doubtful if any plan creating by law a centralized financial system can pass Congress. At the best it must wait for years. Popular prejudice and our own history tell too strongly against it. But the associated banks are free to go ahead and adjust the details of their business in accordance with the workings of commercial creation."

#### UNSATISFACTORY SYSTEM.

"Our monetary system has always been and for more than a generation has been acknowledged by all well informed persons to be profoundly unsatisfactory," Hill continued. "Yet little has been done to improve it. The initiative should be taken by the bankers. It is in a special sense their problem. They are more familiar with its difficulties and with the methods by which it must be solved than any others. It is probable that the public necessity will not wait much longer for the remedy which public opinion deems to be necessary."

"If the bankers do not do this work, not in a self-seeking way, but as a patriotic act performed in the true benevolent spirit, the opportunity to control it may be taken away from them. Changes so made, not directed by intelligence and experience, but by political considerations, may be as disastrous to the banking interests as they would be injurious to the country. The present may be the last opportunity that the bankers will have to perform this signal public service and to direct and safeguard for the future the occupation in which they are engaged."

#### POLITICAL NOSTRUMS.

"Examine the political nostrums now most talked of as saviors of society, humane in intent though many of them be, and it will be found that they all involve the continued expenditure of large sums of money to be collected by taxation. The men who pay these taxes are the holders of property. The men who vote these expenditures are the taxpayers plus that considerably more numerous body of electors who either pay no taxes or a share so inconsiderable that its increase or decrease is not felt. Hence a constantly increasing disposition in the nation and the states to change the distribution of wealth by legislation; taking it by enormous appropriations from those who have accumulated it and scattering it among those who did not."

STANFORD UNIVERSITY, Oct. 11.—When Dr. David Starr Jordan of Stanford steps down the gangplank of the liner Manchuria at her San Francisco dock on October 27, he will be greeted by a surprise party as unique as has ever fallen to the lot of a college president.

More than a thousand students, the college band, faculty members and alumni of the university will be on hand and then there will follow a great banquet at which every under-graduate, professor and alumnus within reach will be in attendance.

Dr. Jordan has been lecturing in the Orient. He and Mrs. Jordan sail from Yokohama this week. After a few days at Stanford he will again make a lecturing tour in the eastern states in the interests of universal peace.

The suggestion of turning out the whole student body and members of the university to greet him was sprung at the banquet of resident alumni to the alumni advisory board at the Sigma Nu fraternity house. It was immediately determined to act upon the scheme.

A cablegram will intercept Dr. Jordan at Honolulu, warning him to make no plans for the evening of his arrival in San Francisco, but the nature of the reception awaiting him will be kept in the dark. Assistant Registrar J. E. McDowell is in charge of arrangements.

## CITY OFFICIALS RECEIVE SHOCK

New Electric Light Company  
Gives Notice It Will Enter  
Berkeley.

BERKELEY, Oct. 11.—The first sign of opposition to Mayor J. Stitt Wilson's plans for municipally-owned electric lighting plant for Berkeley appeared today in a communication from the Sierra and San Francisco Power Company, of 55 second street, San Francisco, which contained the announcement that the concern intended soon to open up Berkeley streets for the installation of an electric lighting plant. No city franchise is required for the entry of such a corporation and notice was given by the company through its assistant secretary H. J. Blanchard that it would commence business here under the state laws.

The council after receiving from its shock, referred the communication to the committee as a whole and City Attorney Edmund Staatz to ascertain the city's future action toward the concern. It was evident that the city fathers did not relish the news of proposed competition at the municipal lighting field, and an effort will probably be made to oppose the advent of the Sierra company.

The mayor and the councilmen are not familiar with the standing of the company which will be investigated. A proposed amendment regulating the keeping of cows, to replace a measure which has been proposed, was read at the city council meeting this morning and discussed. It will be taken up again at this evening's session. The proposed measure provides that more than one cow, but not more than six can be kept on single family, provided that one-fourth of an acre of land is available for each cow. The animals are not to be kept within fifty feet of a resident without the consent of the property owner. According to the ordinance no sheep are to be kept in the city. Councilman Norton announced that he will introduce an amendment prohibiting cocking during the week ending October 23-28.

Mayor Wilson, Commissioner of Public Works Turner, City Auditor Hanson, and City Health Officer J. J. Benton were named as delegates to the California League of Municipalities convention in Santa Barbara, October 23-28.

## AUSTRALIAN BOYS GET VARIED ENTERTAINMENT

BERKELEY, Oct. 11.—The boys of the Young Australian League, who are Berkeley's guests this week, were given an automobile ride through the city and suburbs, beginning at 10 o'clock this morning and at 11 o'clock they witnessed a drill by the university cadets on the campus.

This afternoon, the visitors are entertained by the entertainers with a vaudeville performance at the Hotel Shattuck last evening. Following the dinner, Mayor J. Stitt Wilson of Berkeley welcomed them to the city.

The Australian boys were given a banquet and reception at the Hotel Shattuck last evening. Following the dinner, Mayor J. Stitt Wilson of Berkeley welcomed them to the city. The Young Men's Christian Association, Percy R. Jenkins of the Berkeley Boys' Club, Rev. Lamb Parsons of St. Mark's Church, followed with short addresses of welcome.

Leutenant J. J. Simons, director of the Young Australian League, was introduced by Mayor Sidney S. Peixoto of the Columbia Park Boys' Club of San Francisco, and expressed the appreciation of the visitors for the warm welcome extended them. Dr. David F. Barrows of the department of political science at the University of California, who presided at the ceremonies, prominent business men joined in the informal welcome of the visitors following the regular program.

A large part of this sum will be paid to the Idera Park management. A portion will be paid as the result of the wrecking of an Oakland candy store by the students.

LECTURE ON STUDENT LIFE. STANFORD UNIVERSITY, Oct. 11.—Student life in the Latin quarter of Paris and London will be the subject of a talk by H. V. Poor, a recent Stanford graduate, this evening. ## Rivalry Is Keen Among Fanciers of the Bay Cities

With the closing of the entries for the first annual bench show of the Alameda County Kennel Club, which will open at Piedmont Pavilion tomorrow, it is found that over 400 pedigreed and fill-blooded canines will be on exhibition.

This large list assures one of the largest shows ever held on the Pacific Coast and the class and character of the canines assures a brilliant display of man's best friend.

Keen rivalry has sprung up among fanciers of the canine and the best have been entered in the various classes. Especially interesting is the fact that the entry list of Alameda terriers and bulldogs is one of the largest ever sent to the listing committee of a dog show.

IRVING ACKERMAN'S ENTRY. One of the most interesting lists of entries is the one of Irving Ackerman, who will have six wire-haired fox terriers on exhibition.

In the bulldog class will be found Kintoun and Jumbo, prize winners all over the land. In the bloodhound class will be those from the Fearless kennels, all of them beauties.

J. L. Cunningham has entered his Earl of Wurttemberg VII, valued at \$500 in the great dane class, and A. W. Elliott will show his Von Moltke.

MANY COCKER SPANIELS. In the cocker spaniel class the entry is a large one and several of the best in this have been listed for exhibition.

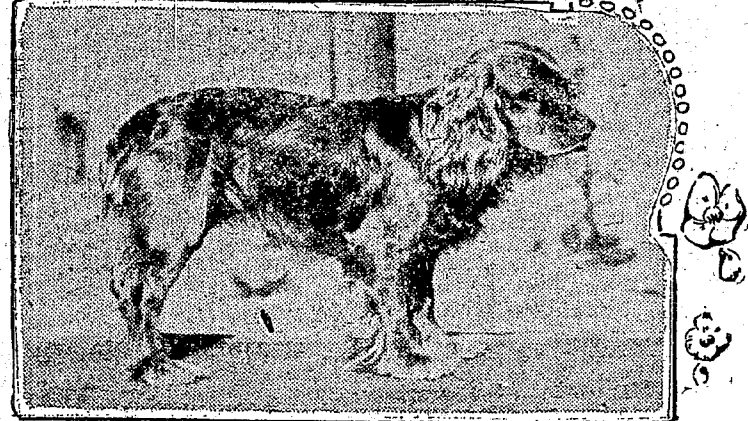

With the closing of the show in the morning at 10 o'clock the first judging will commence at 2 o'clock and continue until 5 and will be of the toy breeds. At night, from 8 to 10 o'clock the prizes will be awarded for cocker spaniels and frisk dogs.

G. A. Muss Arnott of Tuckahoe, New York, will judge all classes and the following committee will assist: E. B. Rosenberg and G. A. Nieborger, with H. E. Torgensen as veterinary surgeon.

## NEW FIELD OPEN FOR STUDENTS OF FARMING

## BERKELEY ELKS WILL NOT PARADE FRIDAY

BERKELEY, Oct. 11.—Out of deference to the nation's chief executive the Berkeley Elks' minstrel will not parade in Oakland this Friday afternoon, on the occasion of President Taft's visit to the city.

The Elks had planned to give a big street parade preceded by a brass band, and the burnt cork artists were scheduled to appear in silk opera hats and fancy melon coats and uniforms, but owing to the fact that President Taft is to be the guest of the city on Friday they decided to forego any demonstration that might in any manner interfere with the Oakland reception committee's plans.

The Elks held their regular rehearsal last night and Director Harry Miller of the firm of Miller & Draper, who has charge of the orchestra, is highly pleased to appear in the manner in which the minstrel men go through their parts.

One of the big features of the entertainment announced today will be "Hilda Hawkins' Ball," one of the dearest musical sketches of the "black belt" type ever staged. The plot concerns a ball held in honor of Jim Jackson, a powerful colored politician in Sacramento, and just when the festivities are at their highest the ball is interrupted by a "tan-shoed, crap-shooting nigger," who has a gun and a razor.

The part of Jim Jackson is taken by Charles C. Floyd and Hilda Hawkins is enacted by Clinton Draper. The classy sixteen couples in the final dance, wenchies and "burr-heads." Dr. Billings plays the part of Luella, a coon who did not have "card of invite." Ralph Halloran is Luella's affinity.

# RAILROADS WILL EXCHANGE TICKETS

## Oakland & Antioch and Key Route to Allow Interchange of Commutes.

Announcement was made today by officials of the Oakland and Antioch railroad that an agreement had been reached with the San Francisco, Oakland and San Jose (Key) Route, whereby an interchange of commutation tickets to and from San Francisco is to be permitted. In other words, when the Oakland and Antioch line is built on Shafter avenue cars will be run from the tunnel to Fortieth and Opal streets, where connection will be made with the Key Route trains to San Francisco.

Commutation tickets on the Key Route lines will be good on the trains of the Oakland and Antioch. This agreement provides the wedge for the opening up of a vast territory. The territory to the mouth of the tunnel is within the Oakland city limits, but has at all times been considered so far out of the city that it is now nothing but a district of ranches and small farms. The Oakland and Antioch line will provide speedy and comfortable service to San Francisco as well as the heart of Oakland.

## DR. LYMAN ELECTED KING OF JAILBIRDS

PORTLAND, Oct. 11.—The liberality of Dr. John Grant Lyman has made him the most popular prisoner in the Multnomah county jail and yesterday he was unanimously elected King of Kansas Court.

There was a string to the honor, however, for the present prison bunch has an eye to the main chance. Dr. Lyman was to "set 'em up," which he did to the extent of a meal of eatables and drinkables for the jailers. The sum of \$245 in bills taken from Dr. Lyman's bandaged foot withered accordingly.

Copies of indictments charging Lyman with conspiracy to escape from a United States office are expected tomorrow from San Francisco. United States Judge Bean yesterday set the hearing for Friday morning on the application for removal to California on this charge.

## LATEST NEWS FROM OUTSIDE TOWNS

### KNOWLAND TO AID MARE ISLAND YARD

Congressman to Seek the Next Dreadnaught Contract for This Coast.

VALLEJO, Oct. 11.—Congressman Joseph R. Knowland yesterday promised active support at the next session of Congress for the campaign to bring a dreadnaught contract to Mare Island navy yard and the building of a third drydock at the local station.

Knowland was approached on the subject by J. D. Robinson, president of the Merchants' Association; C. E. Perry, president of the Chamber of Commerce; H. L. Freudenberg, secretary of the Vallejo Building Trades Council, and Frank R. Devlin. Devlin expects to be a candidate for Congress from this district.

Knowland was instrumental in bringing two earlier contracts to Mare Island and believes, despite Secretary Meyer's opposition, that the government navy yard will soon be building and maintaining ships, owing to the inability of the private yards to compete under the eight-hour labor clause.

All Commercial Bodies of This Section Represented; Event to Be Annual.

HAYWARD, Oct. 11.—The barbecue held at Laurel Grove Park yesterday afternoon under the auspices of the Hayward Chamber of Commerce was one of the most enthusiastic gatherings ever held in this section. Delegations from nearly every commercial organization in this section were in attendance besides representative citizens. Many women were present.

### INDEPENDENCE GIVEN NEW LEASE OF LIFE

VALLEJO, Oct. 11.—The historic old receiving ship Independence has been granted a new lease on life. The news which came from the ship at Mare Island and in this city, came from Bremerton yesterday that the cruiser St. Louis was to be put in readiness to relieve the Independence as receiving ship at Goat Island. The Independence will be sent from Mare Island for the time being, and will be placed in reserve.

This is a switch from the previous plans of the Navy Department, which announced that the Independence would be disposed of as junk, and would be removed to Mare Island by the modern St. Louis. Public sentiment, both in and out of the service, has saved the Independence for the time being at least, although it is regarded here as only a question of time until the old receiving ship will be passed by for a vessel of more modern construction. The Independence is the oldest commissioned ship in the service today, and the first of the old frigate Navy to enter San Francisco bay.

Great Western Power Company Ceases Work in City of Martinez.

MARTINEZ, Oct. 11.—The board of town trustees yesterday effectively stopped the stringing of wires by the Great Western Power Company in this place by threatening to bring an injunction suit in the event of its failing to comply with the order of the board. The corporation will cease work until the board of trustees decides whether it will allow the company to supply electricity to Martinez.

Residents on Escobar street appeared before the trustees and protested the continuation of work in building the line down Escobar street. The lobbyists claimed that the company had secured its franchise through the streets on the promise that power would be served to the city.

The trustees went to Escobar street in a body and made an investigation. They ordered the work stopped after a short consultation.

### COUNTIES MAY ENTER COMBINE

The Plan Advanced for Contra Costa and Others to Have One Building at Fair.

MARTINEZ, Oct. 11.—Members of the Contra Costa County Board of Supervisors will attend the meeting of the supervisors from San Joaquin, Tuolumne, Mariposa, Stanislaus and Merced counties at Stockton next Saturday afternoon to advocate the construction of a single building to house all county exhibits at the 1915 World's Fair. The local officials have gone on record as favoring such a proposition, it being felt that the counties of this part of the State would make a better showing in that way than if there efforts were divided.

The plans as proposed call for the erection of a huge structure, to be built following the geographical outline of the State of California. It is proposed that the exhibits from the various counties should occupy the building, the location occupied by the State Fair. San Francisco would be the main entrance to the structure. The plan is a unique one, nothing like it having been attempted in the great expositions of the past.

VALLEJO, Oct. 11.—The little gunboat Vicksburg is now on its way to Mare Island from Corinto, having been relieved by the Yorktown, which left the yard about three weeks ago. American Will Not Be Sent to Mexico to Face Trial for Robbery.

BOSTON, Oct. 11.—The case of the Mexican government against George C. Robbins, a Boston man, who was a prominent insurrecto, has been thrown out of the courts here. United States Commissioner Robbins declared that there was no extradition papers charging Robbins with embezzling \$1000, the property of a Mrs. Howe of Mexico City. The commissioner, after examining the documentary evidence submitted by the Mexican authorities, declared that there was nothing in any of the papers to show that Robbins had committed the crime alleged.

## KILLS MAN WHO SEEKS QUARREL

Street Railway Conductor Says That He Was Forced to Slay.

LOS ANGELES, Oct. 11.—After vainly trying to persuade him to leave following, J. A. Harrison, a street railway conductor, at an early hour this morning shot and killed William A. Buchan, of whom little is known. According to Harrison's story, Buchan accosted him in a restaurant and tried to pick a quarrel and later followed him out on the street and from one lodging house to another, while the conductor was trying to obtain a room.

Finally, so Harrison said, Buchan started to attack him and seemed about to draw a revolver, whereupon the conductor used his own weapon and killed his assailant. Harrison gave himself up to the police.

## CHICAGO CHAMPION WASTER OF WATER

400,000,000 Gallons Leak Away Every Day, Is Report.

CHICAGO, Oct. 11.—Chicago wastes from 300,000,000 to 400,000,000 gallons of water every day. From one-half to two-thirds of the water pumped in Chicago is actually lost.

These facts were reported yesterday by a subcommittee of the city council which has devoted the summer months to the study of the water problems. The causes of the waste are given as underground leakage of water, main leakage from faulty plumbing, and careless and unnecessary use of water by consumers.

## FEAR FLOOD AS RESULT OF GIGANTIC LEVEES

WOODLAND, Oct. 11.—Because reclamation district No. 108, in Colusa county, is building such immense levees that no flood can surmount them, those districts south of Knight's Landing ridge are expected to be flooded. The levees of No. 108 will cause the water to flow over the top of the ridge, and the water will escape when the Colusa basin fills. The directors of No. 108 last spring, after their 25,000 acres had been flooded, tried to cut through the ridge to make a big levee unnecessary, but were unjoined. Long and expensive litigation in sight when the expected flood next winter tears the channel through the ridge and floods several thousand acres below Knight's Landing.

## GRAND LODGE OF MASONS CONVENE

Report of Secretary Shows Healthy Condition of Order in State.

SAN FRANCISCO, Oct. 11.—The grand lodge of Free and Accepted Masons of California was opened in sixty-second annual convocation in Golden Gate commandery hall at 10 o'clock yesterday morning by Grand Master Dana Reid Weller in ceremonial form in the presence of the other grand officers and about 600 representatives.

The grand master in his address reviewed the present condition of the fraternity, finding it in all respects favorable, and among other things returned formal thanks to the daughters of the late grand master, W. Frank Pierce, for their gift of his Masonic library.

Grand Secretary John Whitcher in his report says that since the previous communication three lodges have been formed—Kerman, Fresno county; Ingleside, Los Angeles county; and Eagle Rock, in the same county. At the close of the last communication there were 239 chartered lodges with a membership of 43,875. Now the membership is nearly 46,000.

During the year he collected and paid to the grand treasurer \$95,829, segregated as follows: For the home fund, \$46,836; general fund, \$43,291.10, and representative fund, \$6,701.90.

In the evening the third degree was exemplified in King Solomon's hall by the grand master, grand lecturer and the district inspectors.

This morning there was a general business session, and at 1:30 o'clock in the afternoon session by Grand Lecturer A. G. Burnett, at the close of which the grand lodge will be called off to take part in the ceremony of laying the cornerstone of the new temple to be erected at San Juan avenue and Oak street.

## OPERA DEVOTEES AWAIT 'LA TOSCA'

Production Eagerly Anticipated by Music Lovers of the Bay Cities.

During the past seven weeks in which the Lambari Grand Opera Company has been drawing enthusiastic music lovers to the Idora Park Theater, probably no opera has caused so much interest as the forthcoming production of Puccini's "La Tosca," to be presented for the first time at popular prices this evening. Immensely popular is the favorite opera with his singers and he promises the music lovers one of the greatest performances they have witnessed during the past seven weeks.

There are two incidences in connection with tonight's performance which alone will be worth many times the small price of admission. Chevalier Guerrier, the marvelous "scoreless conductor," is to direct, and Michele Giovinetti is to be Scarpia. Scarpia is the noted baritone's favorite role.

One of the features of the masquerade skating carnival which will be held at the big rink at Idora Park this evening will be the appearance of Angelo Antola, the famous baritone of the Lambari Grand Opera Company dressed in his tonic costume from "T. Pagliacci." Antola is an enthusiastic roller skater and in the carnival this evening he will try to win the first prize for men in the best sustained character division.

Hundreds of the skating devotees have signified their intention of donning costumes and taking part in the carnival. Manager Wallen of the Idora rink, says that the roller frolic tonight will be the largest and most successful ever held at Idora. Skating will be indulged in until a late hour, but none without costumes will be admitted on the floor. Costumes, however, may be rented at the rink.

Through correspondence with friends in the west Mrs. Freeman learned that "John E. Correspondence followed, proving that Rogers was undoubtedly the missing son of Mrs. Freeman, whom she saw when she was a young girl. Mrs. Joseph E. Corey, and lived in Idaho, Mo. ## Strength Comes Not From What You Eat, But From What You Digest.

A Tablet Digests a Meal. Trial Package Free.

Most people eat most foods without discrimination—it matters little what they eat. This is the first turn on the road to dyspepsia. The result is a poor choice of foods, rapid eating and improper mastication, are the unquestioned causes of all stomach disorders from the slight ache to the malignant cancer.

There is nothing more revolting than a dyspeptic stomach—a very far from perfect, sending forth its poison throughout the entire system, depressing the brain, befouling the breath, souring the taste, deadening the muscles, incapacitating the liver and kidneys for their work, debilitating the heart, choking the lungs and clogging the bowels.

All of these disagreeable and dangerous conditions are due to the improper digestion of food and the consequent assimilation of poison. What else can be expected? If the food lies in the stomach, if the system is constipated, fermentation is the natural outcome. It shows itself in sour watery risings, belchings, heartburn and painful breathing.

There is only one way to remove this condition. If the stomach refuses to digest your food, put something in it that will. Stuart's Dyspepsia Tablets are nothing but digestives. They are not a medicine. They work when the stomach will not.

Each tablet contains enough pepsin, diastase, golden seal and other digestive elements to digest 300 grains of ordinary food to the proper consistency for assimilation into the blood.

Stuart's Dyspepsia Tablets are absolutely pure. There is nothing harmful in them as shown in their endorsement by 400 physicians in the United States and Canada.

Ask your family physician his opinion of Stuart's Dyspepsia Tablets and if he honestly tells you he will state positively that they will cure your stomach trouble whatever it may be, unless you have waited too long and have allowed your disorder to develop into cancer.

Act today and begin to end your suffering. A free trial package will be sent to your address upon request. The 50 size packages are for sale at your druggist's, F. A. Stuart Co., 150 Stuart bldg., Marshall, Mich.
